

What the customers say:

"Overall, we believe it is the best deal for credit card processing available to hobby stores. Setup was easy and Jerry Conley was pleasant to deal with".

Jr Junction Train & Hobby
Syracuse, NY

"I am constantly surprised how few hobby shop owners have not transferred to APS. In the course of a year, you will save not hundreds but "thousands" of dollars! It just can't get any better than that".

Fred Hill
The Original Whistle Stop
Pasadena, CA

"To me, a credit card processor should be someone you can trust. AP Solutions and Jerry Conley give you the facts and earn your trust. They made the transition very easy and when I had questions he and others were only a phone call away. I received updated equipment and software to support the chip cards and everything worked great. Also, we are saving \$2,000-3,000 year".

Rex Simpson
Hobby-Sports.com
Portage, MI

"We changed credit card processing because of the savings we would see. The process of change was almost seamless. We have had no problems with the credit card machine. Every company says they are the best and have the best rate. It is more than just the rate that is important when choosing a company. Understanding the fees: the monthly statement fee, monthly minimum fees, gateway access fee and interchange fees are just some fees that you could actually see and understand on your AP bill".

Steve Giesecking
Phil's Hobby Shop
Fort Wayne, IN

"For the few times I've had to contact Jerry regarding AP Solutions processing, his response was quick, accurate and extremely helpful.

One time he was performing at an airshow and Jerry called as soon as he landed! That's service! You couldn't ask for a better processing service.

As far as the rates, you could shop all you want but you will not find better rates anywhere. It's one of those rare services that once you put it in, it just works".

Very Satisfied customer
